Commercial & hospitality interiors

RETAIL · RESTAURANTS · CAFÉS · OFFICES · WELLNESS

Commercial interior design is about much more than just throwing together some paint samples and hoping for the best. In today's changing corporate landscape, the design of your office must not only be functional. It must also indicate style and show your client that you are the expert you claim to be.

NAD AL SHEBA · CONCEPT DESIGN

At ZXI, we present to you the vibrant Skyline project that stays with us as a very dear one. This is a concept design in the interiors where we blend modern style with vibrant colors. We thought of a wave like the concept that blends throughout the space and it follows. As in this case, this is the floating bed we designed.
